

MATH CHAT

Problem:

Student #1 Name: _____

In the space below, Student #1 will show all of his/ her work.

Student #2 Name: _____

In the space below, Student #2 will show all of his/ her work.

Step 1:
Plan and
Reason

Step 2:
Solve

Step 3:
Check
Work

Student #2 Name: _____

Use the prompts to write a response about whether Student #1's solution was correct or incorrect, and why.

Claim

Circle the answer to complete the claim:

Student #1's solution is (correct / incorrect).

Evidence

If the solution is correct, how do you know? What evidence do you have to verify this claim? If the solution is incorrect, what errors were made? Provide evidence below:

Reasoning

Use words to explain how the evidence you provided shows the solution is either correct or incorrect:
